

Jim Dumps had tried some time in vain
To ease an after-dinner pain
Which gnawed at him his belt below,
And filled his world with indigo.
Dyspepsia now can't bother him,
For "Force" has made him "Sunny Jim."

BUCKLIN BREEZES.

From Our Regular Correspondent.

Carroll Stokes left Monday evening to join his parents at Craig, Mo. where they expect to make their future home.

The several buildings that are being constructed here are progressing slowly on account of the unfavorable weather.

L. O. Elder has purchased a house and five acres of land, north of the railroad and will move there the latter part of the week.

Mr. N. E. Bloss and family and the dog, left on No. 4, Monday evening for Patonsburg, Mo. where they will make their home for a while.

W. W. Patterson, cashier of the Bucklin State Bank spent a few days at Wichita the last part of the week but was at his post in the bank Monday morning.

Mrs. A. J. Deem returned home Wednesday from a five weeks visit with her folks at Chula, Mo. Mrs. Deem's sister, Miss Presta Davis, accompanied her, and will remain during the summer.

Our grocerymen are having a taste of the strenuous life these days, it doesn't make any difference how deep the mud gets the people are so obstinate that they want to eat anyhow, and the groceryman, he has to deliver his wares.

The committee having the matter in charge have procured the big tent belonging to the Dodge City District M. E. Church in which to hold their Decoration day exercises on May 30th at Bucklin.

That Book social is having a hard time of it. It was postponed Saturday night until Tuesday night on account of the unfavorable weather. Tuesday night was no better and it was postponed again this time until the clouds roll by, we guess.

Yes, it is raining a little more these days and Main street is navigable for gum boots and mud soles from the railroad to Elm street and back again and incidentally the wheat crop is saved again but we are afraid that the reputation of Bucklin as a desirable place to live is suffering, owing to the adhesive quality of the soil just now.

S. D. Anlis, A. W. Guerin and Sherman Tanner all took No. 3 Tuesday morning for the land of the setting sun. They expect to be gone about sixty days and will visit California Oregon and Washington and perhaps Utah where they can study the Polygamy question for themselves and their if they escape conversion to Mormonism they will perhaps return home wiser if not better men.

H. M. Thompson, while delivering goods, Wednesday morning got out of his wagon to carry some goods into a house, leaving his horse standing. It is supposed that the horse took fright at something, at any rate it started out on a little delivery trip of its own and notwithstanding the mud, made pretty good time out to C. H. Bottolph's place one and a half miles west of town, where the wagon collided with a post wrecking it (the wagon.) We do not know at this writing what other damage was done. Moral: Don't stop too long to talk with the cook.

There was a sad occurrence in the yards at this place last Thursday evening, when a young man named A. J. Logan, was run over and instantly killed by an engine. The engine, one that had just come in from the west, pulling a freight train, had pulled the train in on a side track uncoupled and was running back on the main line to the round house when the accident occurred. It was a few minutes before nine o'clock, the night was dark wet and gloomy the engine crew tired and worn out with a long run. The man was not seen until the engine was all most on him. too late to do anything to avert the calamity. Coroner Dr. J. C. Bradehoft had a jury summoned and held an inquest Friday morning.

After hearing all of the available evidence. The jury found the following verdict. The deceased came to his death by an unavoidable accident namely: Being run over by engine No. 484, in the C. R. I. & P. yards at Bucklin, Kansas. The verdict no doubt is the truth as far as it goes and it perhaps goes as far as the jury was warranted in going but we believe that there is something more, and that somebody is responsible for the young man's death. It appears from the evidence that the engine was not running at a speed of above six miles an hour and that it carried the lights required and the bell was ringing all to give warning but notwithstanding the young man stood on the track until he was struck by the engine. The man had been working a few days with the steel gang west of here and came in on the local freight train the engine of which killed him. It was in evidence that he was considerably under the influence of intoxicating drink, so much so that it was with some difficulty that the trainmen could get him to leave the train. We think that this explains the cause of the accident. The young man has a mother living near Chickasha I. T.
